

## 2022 TEXAS

### Packaging and Labeling Requirements

#### For Consumable Hemp Products

No Texas state universal symbol.

#### **PACKAGING AND LABELING REQUIREMENTS FOR CONSUMABLE HEMP PRODUCTS:**

Before a consumable hemp product that contains or is marketed as containing more than trace amounts of cannabinoids may be distributed or sold, the product must be labeled in the manner provided by this section with the following information:

1. A batch identification number.
2. A batch date.
3. A product name.
4. A uniform resource locator (URL) that provides or links to a certificate of analysis for the product or each hemp-derived ingredient of the product.
5. The name of the product 's manufacturer; and
6. A certification that the delta-9 tetrahydrocannabinol concentration of the product or each hemp-derived ingredient of the product is not more than 0.3 percent.

The required label may be in the form of a uniform resource locator (URL) for the manufacturer's website that provides or links to the required information and a QR code or other bar code that may be scanned and that leads to the required information. The required label must appear on each unit of the product intended for individual retail sale. If that unit includes inner and outer packaging, the label may appear on any of that packaging. These requirements do not apply to sterilized seeds incapable of germination. These requirements do not apply to low-THC cannabinoids regulated under the Compassionate Use Act (Chp.487).

Neither Medical nor Recreational Marijuana are currently legal in Texas.

DISCLAIMER: THIS IS A NEW LAW AND CHANGES MAY BE EXPECTED.

DISCLAIMER: THESE REQUIREMENTS ARE BELIEVED TO BE ACCURATE, BUT ARE NOT ALL-INCLUSIVE AND ARE SUBJECT TO CHANGE. THEY SHOULD NOT BE RELIED UPON FOR COMPLIANCE WITH ALL LAWS AND REGULATIONS RELATING TO PACKAGING AND LABELING OF CONSUMABLE HEMP PRODUCTS IN TEXAS.
